

To check the current version of your firmware, go to:

Menu > Utilities > Radio info > Versions

If your current firmware version is D002.XXX or D003.XXX then you should upgrade to firmware version D003.020.

If your current firmware version is D013.XXX, then you should upgrade to firmware version D013.020.

If your current firmware version is D013.XXX and your radio is GPS capable, then you should upgrade to firmware version D013.020 for GPS.
